## The CSI Framework (ST-CSF.001)

serves as the foundation for GOLD membership.

### Multi-streamed Collaboration

Developed through unified approach to security integration

### Global Best Practices

Aligned with ISO 31000:2018, ISO 27001:2022, and ISO 22301:2019

### Expert Endorsements

Endorsed by leading experts, providing trusted foundation

# Clear Investment. Trusted Recognition.

## Transparent Fee Structure

CSI certification with significant benefits for GOLD members

Product Tier	Evaluation Fee	Award Fee	GOLD Member Benefit
Platinum Product	€1,500	€8,000	Free evaluation + €5,000 award fee
Gold Product	€1,500	€5,000	Free evaluation + €4,500 award fee

## GOLD Member Benefits

**Cost savings**  
Reduced evaluation fees

**Free evaluation**  
Streamlined certification

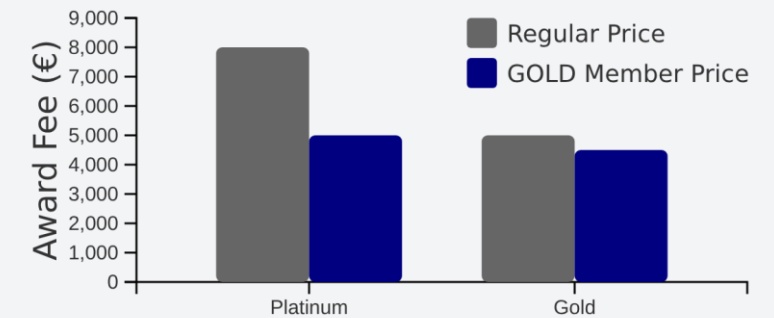

**Valid for 3 years**

Long-term recognition and value for your investment

## Award Fee Comparison

# Empower Your Team

## Credential Pathway Overview

The CSI certification pathway follows a progressive structure designed to develop expertise from foundational knowledge to chartered practitioner level. Each step builds upon the last, creating a comprehensive journey towards mastery in converged security.

### CSCE: Expert

Foundational certification covering threat modelling, cyber-physical integration, and compliance standards.

### CSP: Professional

Strategic and operational training delivered in a small group format, focused on leadership and planning.

### CSL: Leader

Awarded upon completion of both CSCE and CSP, recognising readiness for enterprise leadership roles.

### C-CSP: Chartered Practitioner

The highest designation, awarded upon verified framework implementation and leadership experience.

## Professional Development Benefits

### 3 Professional Memberships

Included for free with GOLD membership

### 20% Discount

For whole membership on credentialing pathways

## Credentialing Pathways:

CSP

C-CSP

# Lead by Example

## GOLD members shape the global security landscape

### Advisory Influence

Contribute directly to CSI advisory initiatives that shape international standards.

### Resilience Building

Drive resilience against hybrid, systemic, and cascading risks in cyber-physical domains.

### Standards Alignment

Ensure security governance controls align with global best practices (ISO 31000:2018, ISO 27001:2022, ISO 22301:2019).
